

## **Financing sustainable growth and resilience: International experience and African perspective**

The Regional Centre of Excellence of the Financial Services Commission, Mauritius with the participation of the Organisation for Economic Co-operation and Development, and in collaboration with the Bank of Mauritius will host a virtual technical training on Financing sustainable growth and resilience: International experience and African perspective on Thursday, 02 April 2026 at 10:00-12:00 hrs (Mauritius Time).

### **Overview**

The technical training seeks to strengthen participants' understanding of the financing requirements and policy frameworks needed to advance Africa's green transition, while analysing the current state of finance for the energy sector in Africa. It will provide insights into innovative financing mechanisms, global regulatory developments, and structural barriers to scaling sustainable investment.
